

Summary

I am a Full Stack Developer with a proven track record of delivering high-quality solutions. Skilled in building responsive user interfaces and scalable backend systems. Effective collaborator with cross-functional teams. Passionate about creating intuitive and visually appealing applications that drive user engagement and satisfaction. Proficient in RESTful API development, Django Rest framework, and build tools.

Experience

FULL STACK DEVELOPER | PAYATU SECURITY CONSULTING | JANUARY 2022 – PRESENT (JANUARY 2022- MAY 2023: – INTERNSHIP, MAY 2023 – PRESENT: – FULL TIME)

Backend Development

- Engineered scalable APIs with Django Rest Framework, enhancing performance and security.
- Optimized database schemas, improving query efficiency and data integrity.
- Integrated third-party services, expanding application capabilities.
- Implemented authentication and authorization mechanisms to secure APIs.
- Developed and implemented automation scripts using Python and shell scripting to optimize backend operations and streamline task automation

Frontend Development

- Developed dynamic web applications using Next.js with server-side rendering.
- Crafted reusable React components for consistency and maintainability.
- Designed responsive UIs, ensuring seamless user experience across devices.
- Enhanced application performance through code splitting and lazy loading.

ANGULAR DEVELOPER INTERN | SIMNOVUS TECH PRIVATE LIMITED | SEPTEMBER 2021- DECEMBER 2021

- Developed and maintained the user interface for a cutting-edge UE simulator using Angular, enabling 5G and 4G network simulations.
- Implemented real-time network monitoring for immediate insights.
- Created statistical analysis tools for comprehensive data evaluation.
- Developed interactive data visualizations to enhance user experience.
- Optimized application performance and user responsiveness.
- Collaborated with backend developers to ensure seamless integration.

FULL STACK DEVELOPER INTERN | EKAL SHIKSHA | MAY 2021- AUGUST 2021

- Developed and deployed a robust e-learning application, utilizing full stack development technologies and frameworks.
- Implemented interactive features such as course enrollment, progress tracking, and online assessments, enhancing the user experience and promoting effective learning.
- Collaborated with the team to design and develop scalable backend APIs, enabling seamless data retrieval and management for the e-learning platform.

Education

BACHELOR OF TECHNOLOGY (COMPUTER SCIENCE & ENGINEERING) | MAY 2023 | DAYANANDA SAGAR UNIVERSITY, BANGALORE

Skills & Abilities

Frontend: ReactJS, NextJS, AngularJS

Backend: Django Rest Framework, Django, NodeJS, MERN, MEAN

Databases: PostgreSQL, MongoDB

Other Technologies: Maven ,Python, Docker
Django Rest

Tools: JBoss, Jenkins, CI/CD, github actions
